

Home or school It's up to you!

For children in the UK, education is compulsory. School is not.
In more and more families children are learning at home.

You don't have to be a teacher
You don't have to be wealthy
You don't need special equipment
You don't need to follow the national curriculum
Just a genuine interest in promoting your child's learning

Want to know more about Home Education?

Organisations offering support, advice and information to
parents who are practising or considering education at home:
